

# HARSH VARDHAN JHA

Noida sec 27 201301

☎ +91 9110163886 ✉ [harshvardhanjha35363@gmail.com](mailto:harshvardhanjha35363@gmail.com) in [linkedin.com](https://www.linkedin.com) ○ [github.com](https://github.com)

## Education

**Punjab Technical University**

*B.Tech in Computer Science Engineering (7.92 CGPA)*

**Aug 2020 - Jul 2024**

*Punjab, India*

## Experience

**Attentive.ai**

*Frontend Developer (MERN Stack)*

**Jun 2025 - Aug 2025**

*Noida, India*

- Contributed to live production codebases (**Falcon, Robin, Feathers**) by adding, modifying, and debugging core frontend features using **React.js**, **TypeScript**, and **Zustand** for state management, ensuring stability and improved UI/UX.
- Rapidly onboarded and gained hands-on experience with advanced libraries such as **OpenLayers** for map-based visualizations and custom drawing tools.
- Collaborated with cross-functional teams to deliver modular, reusable, and performance-optimized components in a large-scale codebase.

**Excellence Technology PVT LTD**

*Jr. Software Developer*

**Jun 2024 - Jul 2024**

*Noida, India*

- Developed a comprehensive **user authentication system** during my **MERN** stack internship, utilizing **Node.js**, **Express**, **MongoDB**, and **bcrypt** for secure password hashing. Implemented **Passport.js** for advanced authentication. Task to learn basic concepts of **Golang** and also **Python**

## Technical Skills

**Languages:** C++, Python, HTML/CSS, JavaScript, SQL, Node, TypeScript

**Frameworks/Libraries:** ReactJS, Bootstrap, Express, Tailwind CSS, SADch UI, Daisy UI, OpenLayers, Zustand

**Databases:** NoSQL (MongoDB), MySQL (MySQL Workbench)

**Dev / Deployment:** VS Code, Postman, Git, Github, Render, Netlify, Vercel, Jenkins, Docker, Kubernetes

## Relevant Coursework

- Data Structures and Algorithm
- Object Oriented Programming
- software development

## Projects

**E-commerce**

\* [View project here](#)

**Sept 2023**

- Leveraged **Context APIs** for efficient state management across components, improving performance and maintainability.
- Built secure user authentication and authorization using **JWT (JSON Web Tokens)**, bolstered by **bcrypt.js** for password encryption.
- Created **RESTful APIs**, integrated **Razorpay payment gateway**, and gained global accessibility by deploying the application on **Render**.

**Job Hunt**

\* [View project here](#)

**August 2024**

- Leveraged **Redux toolkit** for efficient state management across components, improving performance and maintainability.
- Built secure user authentication and authorization using **JWT (JSON Web Tokens)**, bolstered by **bcrypt.js** for password encryption.
- Developed **RESTful APIs** and integrated them with the frontend using **fetch**. Created custom hooks in **React.js** for efficient state management and designed the interface using **SADch UI**, with deployment on **ender**.

## Achievements | Coding Profiles

- Secured **5th** place in a university-level coding contest among 350+ participants.
- Solved **350+** GeekforGeeks questions, earned the **2023 Annual Badge** for **59+** consecutive days, and part of the top **3%** GeekforGeeks users. **GeekforGeeks Hackerrank Leetcode Code 360**

## Soft Skills and Interests

**Communication Skill:** Proficient in articulating complex technical concepts with clarity. Actively engages in collaborative team communication, contributing constructively to discussions and decisions.

**Interest:** Interested in Participating in Hackathons and Coding Competitions.
